Raw material

Steel, hardened steel, brass, stainless steel, aluminum...

Process

Cam controlled lathes, CNC, multi-spindle, machining...

Finish and plating

Deburring, sand blasting, grinding, heat treatment, anodizing (Oad / Oai), nickel, zinc...

Diameters

Until 3.15" (80 mm).

Volumes

À partir de 1 000 pièces.

Pièces

Galets, tubes, rondelles, prisonniers, contacts, goujons, pistons, plots, brides, douilles, bouchons, axes, bornes, poussoirs, broches, pions, bossages, écrous, chemises, corps, pions, vis de plombage, goupilles, canons, embouts, rotules, anneaux, supports, tiges, rivets, embouts, entretoises, vis, bagues, inserts, lardons, tubes de dégazage...

Matières

Acier de décolletage, acier traité, laiton, inox, aluminium...

Process

Machines traditionnelles, CNC, multibroches, usinage...

Finition et traitement

Ébavurage, sablage, rectification, traitement thermique, anodisation (Oad / Oai), zingage...

Diamètres

Jusqu'à 80 mm.

Mengen

Ab 1 000 Stück.

Teile

Rollen, Rohrstücke/Stutzen, (Unterleg) Scheiben, Unverlierbare Muttern, Kontakte, Bolzen, Zapfen, Kolben, Flansche, Hülsen, Stopfen, Axen, Klemmen, Druckknöpfe, Stecker, Muttern, Körper, Verschlußschrauben, Stifte, Nippel, Kugelgelenke, Ringe, Trager, Gleitstücke, Nieten, Ansatzstücke, Distanzstücke, Schrauben, Einlege-teile, Leisten, Entlüftungsrohre...

Werkstoff

Alle Stahlsorten, Messing, Edelstahl, Aluminium...

Prozess

Traditionelle Maschinen, CNC, Mehrspindel, Metallbearbeitung...

Oberflächenbehandlung

Entgraten, Sandstrahlen, Gleitschleifen, Wärmebehandlung, Eloxieren (Oad / Oai), Verzinken...

Durchmesser

Bis 80 mm.

✔ Multilingual team with international experience

✔ Responsiveness and reliability

✔ Logistics platform with important storage capability

✔ In-house inspection and quality department
