economic optimization

# CONNECTORS AND ELECTRONIC COMPONENTS

*" To achieve our goal of delivering perfection, both technically and commercially, we offer a tailor-made, reliable and comprehensive service. Our focus is on price, lead time and quality to help you win market share, to develop a mutually-beneficial long-term partnership and to secure the procurement of your components. "* – Xavier David-Vonne, Connectors Division.

## Volumes

From 5 000 pieces up to millions.

## Parts

Pins & sockets, connectors body, ferrules, plungers, guide sockets, screw locks, insulators...

## Raw material

Brass, bronze, nickel silver, BeCu, aluminums, stainless steels, C97, plastics...

## Process

Cam controlled lathes, CNC, Escomatic, high speed and transfer machines...

## Finish and plating

Deburring, sand blasting, annealing, gold, nickel, silver...

## Diameters

From 0.020" (0.50 mm).

## Volumes

De 5 000 pièces à plusieurs millions.

## Pièces

Contacts mâles et femelles, corps de connecteurs, ferrules, fixations, embases, isolants...

## Matières

Laiton, bronze, maillechort, CuBe, ARCAP, aluminium, inox, matière plastique...

## Process

Machines traditionnelles, CNC, Escomatic, transferts...

## Finition et traitement

Tribofinition, sablage, recuit, dorure, nickelage, argenture...

## Diamètres

À partir de 0.50 mm.

## Mengen

Von 5 000 Stück bis zu mehreren Millionen.

## Teile

Kontaktstifte- und Buchsen, Verbindungselemente, Hülsen, Crimpanschlüsse, Steckerelemente, Isolatoren...

## Werkstoff

Messing, Bronze, Kupfer, CuBe, ARCAP, Aluminium, Edelstahl, Kunststoff...

## Prozess

Traditionelle Maschinen, CNC, Escomatic, Bearbeitungszentren...

## Oberflächenbehandlung

Gleitschleifen, Sandstrahlen, Glühen, Vergolden, Vernickeln, Versilbern...

## Durchmesser

Ab 0.50 mm.

✔ Multilingual team with international experience

✔ Responsiveness and reliability

✔ Logistics platform with important storage capability

✔ In-house inspection and quality department
